

Laboratory Schedule

Please note that the schedule listed below includes the number of days the case will be in the laboratory. Shipping days should be added on when determining when the case will get back to your office. In addition, the day the case is received in the laboratory is not included if the case is received after noon.

Splints	4 Days
Bionators	3 Days

Digital Photos

One of the greatest benefits of technology in recent years has been the ease of taking and transmitting digital photos between the dental office and laboratory. At D&S, we appreciate photos anytime we receive them. Our technicians often use an iPad to view the photos rather than print them to eliminate the chance for distortion and to easily zoom in. View our tips for taking better shade photos at www.dnsdental.com/shadetips.

Upload your photos at www.dnsdental.com/photos. Our HIPAA-compliant Photos Uploader encrypts files upon submission and routes to the correct department in the lab.
